

ACCESSORIES FOR GROUND RODS

CLAMP FOR GROUND RODS

Zn+Al+Cu Alloy; M10x25 mm. bolt; for connecting ground rods with ground wire.

article	material	for ground rods Ø mm	weight kg	qty pack
S116	copper plating, bolt copper plating	16	0,083	50
SX116	copper plating, stainless bolt	16	0,085	50
S126	copper plating, bolt copper plating	18	0,084	50
SX126	copper plating, stainless bolt	18	0,093	50
S136	copper plating, bolt copper plating	20	0,099	50
SX136	copper plating, stainless bolt	20	0,097	50

CLAMP FOR GROUND RODS

brass; M10 x 25 mm. bolt; for connecting ground rods with ground wire.

article	material	for ground rods Ø mm	weight kg	qty pack
MS126	brass, galvanized bolt	16-18	0,107	50
MSX126	brass, stainless bolt	16-18	0,105	50
MS136	nickel plated brass, galvanized bolt	20-25	0,170	50

CLAMP FOR GROUND RODS

brass; M10 x 25 mm. bolt; for connecting ground rods with ground wire.

article	material	for ground rods Ø mm	weight kg	qty pack
S146	brass, copper plated bolt	14-16	0,000	50
SX146	brass, stainless bolt	14-16	0,000	50
S156	brass, copper plated bolt	18-20	0,000	50
SX156	brass, stainless bolt	18-20	0,000	50

SINGLE END CLAMP

M10 bolt with drilled head for 10 mm. diameter wires; for connecting ground wire to drilled galvanized poles.

article	type	weight kg	qty pack
M1/N	Zn+Al+Cu alloy base; nickel plated bolts and base	0,072	100
M1/R	Zn+Al+Cu alloy base; copper plated bolts and base	0,074	100
M1/Z	Zn+Al+Cu alloy base; electrolytically galvanized bolts	0,074	100

DOUBLE END CLAMP

M10 bolt with drilled head for 10 mm. diameter wires; for connecting ground wires to galvanized poles with holes 25 mm. apart.

article	type	weight kg	qty pack
M2/N	Zn+Al+Cu alloy base; nickel plated bolts and base	0,147	50
M2/R	Zn+Al+Cu alloy base; copper plated bolts and base	0,150	50
M2/Z	Zn+Al+Cu alloy base; electrolytically galvanized bolts	0,150	50
